DETAILED ACTION

Amendment

The amendment file 20 November 2006 has been entered into this application.

Response to Arguments

Applicant's arguments/remarks, see pages 7-11, filed 20 November 2006, with respect to the rejection(s) of claim(s) 1-13 under 35 U.S.C. 102(e) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.

Examiner's Reasons for Allowance

Claims 1-13 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

As to claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious the optical path means comprises a plurality of optical filters, each of the plurality of optical filters serving to combine a respective one of the laser beams output to the object from the plurality of laser beam generating means with the common optical path, and to separate the respective one of the laser beams returning from the object from the common optical path, in combination with the rest of the limitations of the claim. Claims 2-3, 6-7 and 9-11 are allowable by virtue of their dependency.

As to claims 4 and 5, the prior art of record, taken alone or in combination, fails to disclose or render obvious an optical path means as specified in the specification for guiding the laser beams output from the plurality of laser beam generating means via a common optical path to an object and for guiding the laser beams returning from the object via the common optical path to the optical signal processing means, in combination with the rest of the limitations of the claim. Claims 8, 12 and 13 are allowable by virtue of their dependency.

Additional Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references listed in the attached form PTO-892 teach of other prior art laser measurement apparatus.
